SUMMARY

Computer Science undergraduate focused on software development and machine learning. Delivered web applications and ML solutions through academic projects, hackathons, and research. Applied reliable engineering and data-driven decisions to drive measurable outcomes.

SKILLS

Languages

C++, Python, JavaScript, SQL, HTML, CSS

Frameworks & Libraries

React.js, Next.js, Pandas, Numpy, Scikit-learn

Tools

Git, GitHub, VS Code, MongoDB, Jupyter Notebook, Google Colab

Soft Skills

Problem Solving, Teamwork, Communication, Leadership, Continuous Learning

PROJECTS

Pranexa – Pet Care & Rescue Platform | Next.js, Node.js, Express.js, Tailwind CSS

- Developed a pet care platform connecting users with veterinarians, rescue groups, and adoption agencies.
- Designed responsive UI flows for pet adoption, rescue coordination, and pet essentials marketplace modules.
- Implemented Next.js and Tailwind CSS frontend with Node.js and Express.js backend services.
- Delivered platform modules for pet adoption, rescue coordination, veterinary consultation, and essentials management.

Campus Safety Platform | React.js, Tailwind CSS, Node.js

- Developed a secure reporting platform addressing ragging, harassment, and campus safety concerns.
- Implemented anonymous complaint submission with institutional email verification to reduce misuse and fake reports.
- Designed admin workflows enabling campus authorities to review reports and trigger appropriate actions.
- Delivered a hackathon-winning solution, earning 1st Prize for social impact and practical implementation.

Laptop Price Prediction System | Python, Scikit-learn, Pandas, NumPy, Streamlit

- Developed a machine learning app estimating laptop prices from processor, RAM, storage, display, and brand.
- Performed data preprocessing, feature engineering, and model training using Python ML libraries.
- Evaluated regression performance with metrics and tuned models to improve prediction accuracy.
- Deployed the prediction model in Streamlit for real-time user input and inference.

EDUCATION

Pursuing Bachelor of Technology in Computer Science and Engineering

COER University

CGPA: 7.8

08/2024 – Present

Roorkee

Higher Secondary

R.K College, Madhubani (BR)

Percentage: 72.60%

2023 – 2024

ACHIEVEMENTS

- 1st Prize Winner** – Led a team in developing a **Campus Safety Platform**, securing **first place** in a college hackathon.
- Paranox Hackathon** — Ranked in **Top 100 Teams** (Project: Margdarshak — Bus ETA Tracker)
